DECLARED GOVERNANCE CONTEXT (LOCKED)

Environment: Production

Regulatory Scope: Regulated

Business Criticality: High

This context was declared prior to analysis and is immutable.

Changing context requires a new analysis and a new authority record.

AUTHORITY STATEMENT

Legacy Lens issues this decision as an independent deterministic authority under the declared governance context. This record is based solely on provable guarantees derived from source artifacts. Authority is denied only when provability terminates due to Tier-2 boundary evidence or an explicitly defined blocking rule. Severity counts, gate impact, readiness scoring, or exposure metrics do not constitute grounds for authority denial and are not used to determine this outcome. Legacy Lens does not execute code, infer runtime behavior, or certify compliance. Where provability terminates, authority terminates.

AUTHORITY INVOCATION

Legacy Lens authority was formally invoked for the system and scope identified below. This record constitutes an official governance act.

DECISION

Decision Outcome: NO-GO

AUTHORITY DETERMINATION

Legacy Lens issues this decision as an independent deterministic decision authority.

This determination is based solely on provability-terminating boundary evidence derived from source artifacts under the declared governance context.

Authority is denied only when provability terminates due to Tier-2 boundary evidence or an explicitly defined blocking rule.

Severity counts, gate impact, readiness scoring, or exposure metrics do not constitute grounds for authority denial and are not used to determine this outcome.

BOUNDARY STATEMENT

Provability boundaries were detected that terminate deterministic decision authority under the declared context.

Boundary Rule	Evidence Tier	Gate Impacted	Effect on	
---------------	---------------	---------------	-----------	--

			Authority	
DATA_CICS_NO_RESP	TIER_2	Gate 1: Behavioral	Terminates	
		Safety	deterministic

AUTHORITY LIMITATION

Legacy Lens does not execute code, infer runtime behavior, or certify compliance. This decision reflects only provable guarantees from source-level evidence.

SELF-VERIFICATION (OFFLINE)
